

REMARKS

The Examiner's indication that the claims would be allowable when corrected to overcome the rejection based on 35 USC112 has been noted with appreciation.

Corrected drawings to show the reference numerals 26, 27, 28, 29, 46, 49 is submitted herewith. In addition, the specification has been amended to include the reference character 30. As a result of the changes, it is respectfully submitted that the objection to the drawings can now be withdrawn.

The specification has been amended to correct grammatical errors as suggested by the Examiner.

Claim 1, 5 and 6 have been amended to refer to "a" element rather than "the" element and it is respectfully submitted that this change eliminate the basis for objection based on lack of antecedent basis. Claims 6 and 7 have been amended to specify which terminal is being referenced and the typographical error noted by the Examiner in Claim 7 has been corrected. In light of these corrections it is respectfully submitted that the claim objections and rejections can be withdrawn.

In view of the above amendment, applicant believes the pending application is in condition for allowance.

Dated: August 18, 2005

Respectfully submitted,
